WE OFFER THE FOLLOWING TERMS OF SALE

1. All Coins GUARANTEED Genuine - This is a LIFETIME Guarantee!
2. All attributions are guaranteed correct - also LIFETIME Guarantee!
3. The IDENTIFIED POPULATION estimates (RARITY) of varieties change as more pieces of Copper are attributed, and it is IMPOSSIBLE to have an ACCURATE rating! But, we do use the most up-to-date data available - as reflected in "Copper Quotes by Robinson". (CQR)
4. STRICT ANA & EAC guidelines are used in grading, which consist of assigning a grade based on the state of preservation/wear of the piece. We then describe the condition of the coin so that you will have as good an idea as possible of what the coin looks like without actually being able to see it in person. It is our intent that there be NO SURPRISES when you receive the coin. Virtually all old Copper has accumulated some marks in their lifetime since leaving the Die/Mint - It is our intent to describe any such marks of significance. We now introduce a new term - VALUE GRADING!

Sharpness Grade is far easier to describe in consistent terms, and where there may be circulation defects such as porosity, gouges, rim dinges/nicks/bruises, corrosion and other such detractors, arriving at a NET GRADE is certainly subjective at best. The grade that we have assigned on the first line describing each coin is intended to represent this NET GRADE/VALUE GRADE.

If the Second Line does NOT start with a Sharpness grade, then it is our opinion that the NET GRADE of the coin is the SAME AS the SHARPNESS GRADE of the coin, and that there are NO SIGNIFICANT defects worth mentioning. Perhaps NOT PERFECTION, but whatever marks or other elements that may be present, do not deduct from the over-all appearance/grade of the coin, and are mentioned for accuracy.

5. A Full 30 DAY return privilege is allowed for any or no reason. Our business is based upon attracting repeat customers, and it does none of us any good for you to keep a coin with which you are not completely satisfied. The 30 day period is an approval period, and we welcome any of our customers to show their purchases from us to any other EXPERIENCED EAC member for another opinion. Sales are final after the 30 day period, but we will certainly consider extensions in this time limit upon any reasonable request.
6. All coins are guaranteed to meet ANACS certification for grading! Any coin graded lower by ANACS can be returned within 120 days for immediate refund of the full purchase price plus all ANACS certification service fees.
7. All orders are sent postpaid.
8. Approval service is available to established clients with 7 day terms.

We are always interested in buying Early Copper & Type Coins! If you have coins to sell, we would be happy to have you contact us. We are willing to PAY STRONG PRICES for NICE coins. We will also accept coins on a consignment basis at a reasonable commission. Please feel free to contact either of us with ANY questions that you may have.

Thankyou for your patience while this current list was being prepared. It has been an active few months since my last catalog reached you. We have moved to a new home in Edmond Oklahoma which will allow for more office space and I hope will enable me to serve you more efficiently. Please note my new Address, Box 2967 Edmond Okla. 73083 and phone # 405 341-2213.

The Bob Matthews sale By Superior in late May was another successful Copper auction. You can read more about it in my comments at the end of this catalog. The ANA convention was my most successful ever. Sales were brisk and I returned with close to two double row boxes of new material. Three other copper sales are scheduled in the near future, the Joe Rose Sale by Harmer Rooke in November and the Tom Chalkley Sale by Superior in January as well as the annual McLaughlin & Robinson sale in Cincinnati.

This present list contains my purchases from the Matthews sale as well as many important new purchases. I recently aquired a partial set of Half Cents in with a collection and offer more quality pieces of this type than I have had to offer in some time. Among Colonials an exceptional Maris 50-F New Jersey with horses head facing left is offered. I dont believe I have ever offered as many condition census Sheldons as I have listed here. Among them S-19a CC8, A Very Fine S-23, S-192 CC6, S-199 CC10, S-201 CC5. Also two exceptionally nice 1799s. Among middle dates a choice VF 26 N-3 a nice 29 N-5 from the Matthews Sale and a mint state 35 N-6 with double profile, are offered. Late dates are highlighted by one of the finest known 48 N-14s an EF 44 N-2 overdate a 48 N-18 with obverse break and a high grade 50 N-25 as well as a 57 N-3 proof. I hope you will find much of interest as I have endeavored to include many nice collector coins.

As always please feel free to call me with any questions, to confirm the availability of any piece on this list, or just to talk copper. I will be attending Paul Padgets Cincinnati show Sept 15-17, and the Long Beach Convention October 5-8.

1848  N-14  R4  MS60                                     $1250.00
Choice lustrous red and brown with excellent eye appeal.
This variety has long been scarce. Rated R7 years ago it
is now considered R4. However it is still a great rarity
in high grade. I know positively of two superior mint state
examples both in the Naftzger collection and one equal in
the Grellman collection. Very few specimens exist in EF to
AU. This example is tied for third finest known and likely
to remain one of top examples for the foreseeable future.

COMMENTS

The Bob Matthews Sale held May 28th by Superior Auction Galleries of Beverly Hills was another in a series of fine Early Copper auctions held this past several months. The First was the Jack Robinson Sale held by Superior at the end of January. Then the excellent sale at this years EAC convention made possible by an outstanding consignment from a long time California member. The Matthews collection while not of the across the board outstanding quality of the Robinson and EAC sales was an excellent collection, the result of years of carefull collecting. Bob's special interest was in the middle dates and here the collection was especially strong.

To be frank the timing of the sale was not the best. Coming only a few months after the massive Robinson sale and only several weeks after the EAC auction it was felt by many that the collecting community simply could not afford more acquisitions. It was common knowledge that there were still bills outstanding from the Robinson and EAC sales.

Superior put out the red carpet as has come to be expected from them. There was a very nice pre sale reception and as always their staff were especially gracious. Superior runs a very tight ship from the business side of their operations and it is known they have very high expectations of their employees. Over the years they have managed to attract and keep some outstanding people. Glenn and Suzy have become special favorites among the copper crowd being extremely competent as well as very likeable people. It is rumoured that one Ohio collector has been trying to set up a certain Nebraska collector of 1798 die varieties with Suzy, but apparently to no avail. I should stress that this rumour is of dubious origin and its appearance here should be treated with the strictest of confidence and utmost skepticism.

The sale itself scheduled for the evening of May 28th had to have been anticipated with some trepidation by Bob Matthews as there really was no indication before hand of how strong or weak the sale might be. Just before the sale a collector jokingly offered to buy the entire collection for XXX dollars "I can write you a check right now, I just want to see you tell all these people to go home, my offers more than it's going to bring anyway!" Bob smiled "well I guess we'll see.."

What we saw was I think quite surprising. The early dates as was expected sold for somewhat soft prices. Many of these came from the Jackson Storm collection and were not of the same quality in terms of color and surfaces as the middle dates. Of course there were some exceptions. The choice VF30 S-112 cherry picked by Bob at the 1987 ANA sold for \$6050. A very strong price. Moreover there were several strong bidders for the coin only a couple of whom were familiar. Many of the faces at this sale were new. Where were all these new collectors coming from?

Of course not all the faces were unfamiliar. The gentleman next to me held up his hand on lot 327 as if he were reaching to touch the moon. In a sense he was. Winning a beautiful Mint State 1798 S-167 in the process. The price; \$17,600. Toms next list should be out soon but I don't think this one will be on it.

When we reached the middle date lots things really caught fire. Lot 579 A beautiful mint state 1819 N-3 very possibly the finest known for the variety brought \$9350 in a spirited battle. A few lots later a nice AU 1819 N-10 purchased only a couple years ago by Randy Shelton for \$350 after several EACers had passed saying.."too much", sold easily here for \$2500. The quality of the middle dates were really outstanding. The cataloging perhaps excessively strict as coin after coin sold for more than the grade would indicate. Coins cataloged as EF45 were bringing strong AU prices as a matter of course. Many of the coins sold to unknown faces. After the auction it turned out that many I knew by name or through correspondence but had never met in person. In many cases this was their first auction. Hmm. The 1829 Cents were perhaps the most outstanding in the sale. A beautiful 1829 N-3 EF40 sold for over \$3000 and was subsequently resold for over four. A pair of beautiful 29 N-9s sold for \$3520 & \$3740 the higher price for the coin cataloged as VF30. An outstanding AU55 31 N-14 sold for \$6100 while the finest known 33 N-4 was slipped away for \$5500. Among Late dates the rare 47 N-36 brought a hotly contested \$2530. This was a remarkable sale both for the strong overall prices and the broad range of participation. There seems to be no end to the number of new collectors and the steady demand for rare or high quality Large Cents.

Al Boka a collector from Nevada recently sent me an investment analysis of the Matthews collection which proved to be quite interesting. Deducting for auction costs and taxes based on the maximum rate of 28% the annual net return on capital investment was somewhere around 15%. Not too bad for old slow footed collector coins. I wondered what Bobs reaction to this was. Of course he may be so occupied building his late date collection that it will be news to him as well.
